Databases: MySQL

Developer Tools: Git, GitHub, Postman, VS Code

Core Concepts: Data Structures & Algorithms, OOP, Responsive Design

PROJECTS

Portfolio Website | *React.js, Tailwind CSS, JavaScript*

Mar 2026

- Built a responsive portfolio using React.js and Tailwind CSS with reusable component architecture.
- Optimized load performance and implemented mobile-first responsive design.
- Deployed on Vercel with live demo accessible at [Live Demo](#).

Career Track | *React.js, Tailwind CSS, Node.js*

Jan 2026 - Present

- Built an interactive dashboard UI to visualize job search progress and improve user productivity.
- Designed the frontend component architecture for tracking job applications, interview schedules, and status updates.
- Currently integrating Node.js backend with MongoDB for persistent data storage.

ACHIEVEMENTS

• Smart India Hackathon (SIH)

Cleared internal college round, competed as part of a team to solve real-world problem statements.

• LeetCode – 100+ Problems Solved

Focused on Data Structures & Algorithms including arrays, strings, and Linked List.

CERTIFICATIONS

Frontend Developer Intern

Code Alpha

Aug 2024

Remote, India

- Built interactive web apps including a calculator and image gallery using HTML, CSS, and JavaScript, focusing on responsive layouts and DOM manipulation.

Web Developer Intern

InternPe

Jun 2025 – Jul 2025

Remote, India

- Built a Connect 4 browser game and to-do list using HTML, CSS, and JavaScript with Git for version control.
