PROFESSIONAL SUMMARY

Final-year Computer Science undergraduate with hands-on experience in React.js, JavaScript, Node.js, Express.js, MongoDB, and Tailwind CSS. Skilled in building responsive web applications, RESTful APIs, secure authentication, and CRUD-based solutions using modern development practices. Strong foundation in Data Structures & Algorithms, Git/GitHub, and software engineering, seeking a Full Stack Developer role.

EDUCATION

Uttaranchal University

Bachelor of Technology in Computer Science and Engineering

Dehradun, Uttarakhand

Aug 2023 – Aug 2027

- Final Year B.Tech Computer Science and Engineering student
- Focused on Full Stack Development (MERN), RESTful API Design, and Software Engineering Practices
- CGPA: 8.24/10

TECHNICAL SKILLS

Programming Languages: JavaScript, Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Libraries & Tools: Context API, Mongoose, JWT, bcrypt, Git, GitHub, Postman, VS Code

Core Concepts: REST APIs, CRUD, Data Structures & Algorithms, Object-Oriented Programming (OOP), Responsive Design

PROJECTS

DevFuse | *MERN, Redux, JWT, REST APIs* | [Live](#) | [GitHub](#)

- Built a full-stack **developer networking platform** enabling users to discover developers, manage profiles, send/respond to connection requests, and interact through a swipe-based personalized feed.
- Architected the application using the **MERN stack** with RESTful APIs, structuring **15+ modular React components** across authentication, feed, profiles, connections, and request-management modules.
- Implemented **cookie-based JWT authentication** with **bcrypt password hashing** and protected API middleware to secure user sessions and restrict access to authenticated routes.
- Engineered **Redux with 4 dedicated slices** to centrally manage users, feeds, connections, and requests, ensuring consistent, real-time state synchronization across interconnected features.
- Designed a **responsive, animation-rich UI** using Tailwind CSS, DaisyUI, React Bits, and Animate UI, delivering a polished, developer-focused dark-themed interface beyond a standard CRUD experience.

Asset Management System | *React.js, Tailwind CSS, Context API* | [Live](#) | [GitHub](#)

- Engineered a responsive asset management dashboard comprising **10+ reusable React components** with complete CRUD functionality for efficient asset management.
- Implemented **real-time search, 4 status-based filters, 4 analytics cards**, and client-side form validation to streamline asset tracking and improve user experience.
- Designed a mobile-first interface with Tailwind CSS, ensuring a consistent and responsive experience across desktop and mobile devices.

EXPERIENCE

Frontend Developer Intern | CodeAlpha

Aug 2024

- Built interactive web applications including a calculator and image gallery using HTML, CSS, and JavaScript, focusing on responsive layouts and DOM manipulation.

Web Development Intern | InternPe

Jun 2025 – July 2025

- Built responsive web applications using HTML, CSS, and JavaScript while following Git-based development workflows.

CERTIFICATIONS

- **Frontend Developer (React) Certificate** – HackerRank (July 2026)
- **Claude Code 101** – Anthropic (June 2026)
