Professional Summary

Final-year Computer Science undergraduate with hands-on experience in React.js, JavaScript, Node.js, Express.js, MongoDB, and Tailwind CSS. Skilled in building responsive web applications, RESTful APIs, secure authentication, and CRUD-based solutions using modern development practices. Strong foundation in Data Structures & Algorithms, Git/GitHub, and software engineering, seeking a Full Stack Developer role.

Education

Uttaranchal University — Dehradun, Uttarakhand
Bachelor of Technology in Computer Science and Engineering — *Aug 2023 – Aug 2027*

- Final Year B.Tech Computer Science and Engineering student
- Focused on Full Stack Development (MERN), RESTful API Design, and Software Engineering Practices
- CGPA: 8.24/10

Technical Skills

Programming Languages: JavaScript, Java
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js
Databases: MongoDB, MySQL
Libraries & Tools: Context API, Mongoose, JWT, bcrypt, Git, GitHub, Postman, VS Code
Core Concepts: REST APIs, CRUD, Data Structures & Algorithms, Object-Oriented Programming (OOP), Responsive Design

Projects

Asset Management System | *React.js, Tailwind CSS, Context API* | Live | GitHub

- Engineered a responsive asset management dashboard comprising **10+ reusable React components** with complete CRUD functionality for efficient asset management.
- Implemented **real-time search**, **4 status-based filters**, **4 analytics cards**, and client-side form validation to streamline asset tracking and improve user experience.
- Designed a mobile-first interface with Tailwind CSS, ensuring a consistent and responsive experience across desktop and mobile devices.

DevFuse (In Progress) | *Node.js, Express.js, MongoDB, Mongoose, JWT, REST APIs*

- Developing a scalable developer networking platform with a secure backend architecture using Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication, bcrypt password hashing, protected routes, and request validation to strengthen application security.
- Designed RESTful APIs for user profiles, connection requests, and personalized feed functionality following modular architecture principles.

Experience

Frontend Developer Intern — Aug 2024
CodeAlpha — *Remote*

- Built interactive web apps including a calculator and image gallery using HTML, CSS, and JavaScript, focusing on responsive layouts and DOM manipulation.

Web Development Intern — Jun 2025 – July 2025
InternPe — *Remote*

- Completed a frontend web development internship, building responsive applications with HTML, CSS, JavaScript, and Git-based workflows.

Certifications

- **Claude Code 101** – Anthropic (June 2026)
- **Frontend Developer (React) Certificate** – HackerRank (July 2026)
